

fin's

F O R H I M

When printing out your size guide, please ensure that the printer has not scaled the image down.

To be sure, check the scale below the sizes:

UK	7	8	9	10	11	12	13
US	8	9	10	11	12	13	14
EU	41	42	43	44	45	46	47

Print this sheet out and place on a solid, hard floor. Take off your shoe, and your sock if you think you'll be wearing your Fin's with bare feet. Place your heel as closely as you can to the heel of the outline of the chart, and, with any luck, it should be clear what size you should buy.

If in doubt, head with a size up rather than down. Also, check that your printer hasn't scaled the PDF down. Use the measurements below with a ruler to make sure...
